NEW YORK STOCKS

RULED DULL BUT FIRM. TRADING MOSTLY PROFES-

SIONAL.

Buying in Union Pacific and Atchi son Preferred Generally Good-Money Easy.

REPUBLIC SPECIAL. New York, Aug. 6 .- The London market was closed to-day and consequently foreign considerations were not an important facfor in the morning trading. Mail and cable advices indicated the probability of a further advance in the London bank rate, as the 4 per cent rate had been ineffective in drawing sufficient gold for the London regulrements. In the absence of any London market trading in Berlin and Paris was very nominal, and no alterations were recorded in money or exchange.

The tone in the local market was dull. but distinctly firm. The buying in Union Pacific and Atchison preferred was generally good, and it was reported that in the latter the large block of stock which had depressed the price during the past week had now been absorbed. The exceptionally good annual report of the National Tube omnany had an excellent effect on steel ocks generally, and the buying of National Tube was naturally conspicuously good.

Trading was still somewhat professional in most departments, but some of the shrewder operators saw signs of an increasing disposition in the public to take hold of the railroad stocks. There seemed to be considerable local support for the steel stocks, but it was noticeable that in Federal Steel and Steel and Wire, at any rate, there was a considerable supply of long stock from the West. The tractions were rather neglected and public confidence in them was by no means restored. The tip to buy Manhattan from quarters usually well informed had some little effect and brought out a good deal of long stock. The reduction in price of raw sugars checked speculation in American Sugar and for the moment; the selling in it looked rather bet-ter than the buying. Money continued very

The Reading first dividend of 1½ per cent was a disappointment to the market, and the close was inclined to be heavy, without, however, any important decline in the close was distinctly weak out, however, any important decline in the railroad stocks. Sugar was distinctly weak under pressure from lower Wall street, and the trade outlook was not considered quite so encouraging. The borrowing demand still indicated considerable short interest in the market, although it was limited to the grangers and B. & O. common. Gold shipments are expected on Wednesday.

The reported heavy engagement between the allied force and the Chinese rather checked the more confident tone of the mornings trading. It gave the impression that the advance on Pekin might meet with serious opposition, and the difficulty of keeping communications open behind the advance of the civilized Powers is obvious. The war news from South Africa is discount advance of the civilized Powers is obvious. The war news from South Africa is distinctly better and rather tends to discount the reported continuance of guerrilla warfare. To judge from the sources from which these prophecies come, the wish is father to the thought. Rock Island crop reports are much more encouraging than have been expected, and the advices from the St. Paul district are vary good. In both instances an early novement of crops is expocted. Colorado Foel and Iron was strong, and another dividend on the preferred stock was talked of. The buying came from Tennessee Coal and Iron people, which may practically be regarded as inside. Southern Practically be regarde

for the fourth week in July were very good, showing an increase of \$12,000, and a total increase from January 1 of \$1,432,235. The earnings of the railroads in the cotton belt are also good. Vice President Morton of Atchison says that the wheat crop is a bumper, and that the quality is of the best. Prospects were never better and rates are

The following synopsis of the gossip in regard to the leading features of the New York market was received by D. R. Francis, Bro. & Co.:

New York, Aug. 6.—Arbitrage houses were not represented on the local Stock Exchange to-day, and there were no dealings for European account, the bank holiday in London putting a complete stop to international business.

The largest buyer of the Atchison stocks was a commission-house which is lending out 18,00 shares of the preferred and 10,000 common. These transactions were said in Stock Exchange to be for the account of one of the directors of the company. These transactions were said in Stock Exchange to be for the account of one of the directors of the company.

Colorado Fuel preferred was hid up sharply in advance of the dividend declaration, the directors meeting in Denver.

A better demand for Reading first preferred accompanied a report that a semiannual divident of 2 per cent was to be declared in the afternoon. A statement that the report was premature caused a recession.

A considerable short covering order was responsible for an advance of is per cent in Northern Pacific common.

There was an unusual demand for M., K. & T. common stock, and the bonds were firm, buyers expressing the belief that closer relations with the Missouri Pacific were impending.

The highest prices for Anaconda were due to covering of local shorts.

Announcement was made late in the afternoon that \$1,99,999 gold would be exported on Wednesday, but it is uncertain whether general fractional reactions were due to this or the extreme duliness.

Directors of Reading, at a meeting held totional reactions were due to this or the extreme duliness.

Directors of Reading, at a meeting held to-day, declared a semiannual dividend of 1½ per cent on the first preferred stock.

As the London market was closed, there were no cables from there. The following advices in regard to cotton were received:

New York, Aux, 6.—Cotton since noon has ruled quiet and rather featureless, fluctuations being confined to narrow limits. Private advices about the crop are of a very favorable nature, although New Orleans bulls have been sending poor reports of crops in Mississippi Valley. The United States Government weekly report, due to-morrow, will probably read quite favorable. At the moment operators are waiting the Liverpool news in the morning before entering into new engagements. Galveston gets 25 bales new cotton to-day, against 28 last year, but last year's Texas movement was early, owing to drought.

Foreign Exchange.

There was a fair demand for foreign exchange, and the market was strong for sterling, but everything else was unchanged.

REPUBLIC SPECIAL.

Pekin, Ili., Aug. 6.—The machine shop of Henry Weber and wagon shop of Weber & Frey were almost destroyed by fire this morning. Incendiarism is supposed to be the cause. The loss on building is \$6,500; insurance, \$3,400.

a very good business was reported at all of them. The mails, as usual, were heavy and transactions of a routine character were both active and large, especially so as the midsummer duliness in trade has a bad influence upon banking. There were ample deposits and good checking against them during the day, and also a satisfactory country business. The demand for Officer Killed a Farmer.
